A BRIEF HISTORY OF THE LIBRARY

Our college library was established in the year 1967, as the course of study initially offered in our college was B.Sc, only books relating to science subjects were accessed to the library. In fact as many as 850 books were purchased by the library in very first year. Later in years 1969 and 1972, faculty of arts and faculty of commerce respectively were established in our college. These new courses necessitated the purchase of many more books on arts and commerce subjects. Since then, within a span of the next five years, the collection of books in the library increased both in terms of quality and quantity.

As ours was a premier college in Chamarajanagar in those days, the strength of its students increased rapidly over the years, to cater to the needs to expanded students strength, the library was accommodated in a spacious hall. With the assistance of UGC Grants and funds liberally were liberally granted by the management. (JSS Mahavidyapeetha, Mysore). The infrastructural facility of the library was expanded along with the considerable increase in the total no. of books of the library. Besides, the library also subscribed to several Magazines and Journals in Kannada, English and other languages. A separate reading room was also made available to encourage and enhance the reading habits of both students and teachers.

With the commencement of Post Graduate studies in Kannada, there arose the need for the acquisition of books commensurate to the standards required for the Post Graduate course. We are proud to state that our library has one of the best collections of books regarding post graduate in Kannada. As more and more books, both reference and texts have been added to the library.

At present, our library has a collection of around 41662 books both reference and texts. All books are systematically catalogued. A pleasant environment has been provided in the library to both teachers and students for their reference work and studies. The members of our staff have a cordial relationship with teaching and non teaching staff as well as students.

~*~*~*~

VISION

With a broad based plan for the future in widening the horizon knowledge of one and all, service will be provided through computers and internet, indexing and abstracting etc., data feeding of the total collection is early date. Information stored in the books and journals will be through compact disc, with total automation of the library.
