The vote of thanks was given by Kum, Sariya and anchored by Priya S final B.Com student and concludes the programme.

About apprenticeship registration:-

On 29th April 2025 a Apprenticeship registration by TATA Electronics Ltd., programme was conducted by District Employment exchange office Chamarajanagara with the Placement Information and Career Guidance in association of Internal Quality Assurance Cell (IQAC) of the institution. The event aimed to provide placement opportunities and career guidance to students, particularly those in the final year of their academic programs.

The objectives of apprenticeship registration are:

1. Practical Training: Provide hands-on experience and training to students in a specific trade or industry.
2. Skill Development: Equip apprentices with industry-specific skills, technical knowledge, and problem-solving abilities.
3. Industry Exposure: Expose apprentices to real-world work environments, industry practices, and professional expectations.
4. Career Preparation: Prepare apprentices for employment opportunities in their chosen field.
5. Mentorship: Provide guidance and mentorship from experienced professionals in the industry.

6. Networking: Facilitate networking opportunities between apprentices, industry professionals, and potential employers.
7. Employment Opportunities: Increase chances of employment for apprentices upon completion of the program.
8. Bridge the Gap: Bridge the gap between theoretical knowledge and practical application in the industry.

By achieving these objectives, apprenticeship registration can help individuals gain the skills, knowledge, and experience needed to succeed in their chosen careers.

Key Highlights of the Program:

Apprenticeship Registration Report: Tata Electronics at JSS College for Women's ChamaraJanagara On April 20, 2025, Tata Electronics conducted an apprenticeship registration drive at JSS College for Women in ChamaraJanagara. Here's a report on the key highlights and benefits to students:

Key Highlights:

- One-Year Apprenticeship Progra: Tata Electronics offered a one-year apprenticeship program providing hands-on experience, training, and mentorship in electronics manufacturing.
- Eligibility Criteria: Students who have completed 12th grade, diploma, or undergraduate degree and are at least 18 years old were eligible to apply.
- Training and Mentorship: Apprentices received training in electronics manufacturing, including circuit design, quality control, production management, and supply chain logistics.
- Industry-Specific Skills: Participants gained technical prowess, problem-solving, and project management skills.
- Certification: Apprentices received certification from Tata Electronics upon completion of the program.

Outcomes of the Program:

- Hands-on Experience: Students gained practical experience working on live projects and acquired industry-specific skills.
- Mentorship: Apprentices were mentored by experts in the field, helping them build relationships and learn from industry professionals.
- Paid Training: Students received payment while undergoing training, supporting their financial needs.

- Career Opportunities: Tata Electronics hires apprentices based on performance, providing a potential pathway to employment.
- Career Growth: The apprenticeship program paved the way for a career in electronics, offering opportunities for rapid career growth and involvement in industrial projects.

Conclusion:

The Apprenticeship Registration Program was a significant success in preparing final-year B.Com, BBA and B.Sc students for their future careers. By focusing on both soft skills development and international mobility opportunities, the event equipped students with the necessary tools to succeed in a competitive global job market. The IQAC's proactive approach in collaborating with industry experts and international institutions ensured that the program offered valuable insights and tangible benefits to students, marking a key milestone in their professional development.
